

CHECKLIST FOR BOWLING AND SIMILAR INTERACTIVE AMUSEMENTS, BINGO, SIMULCASTING, SKATING CUSTOMERS

The following are the minimum recommended health protocols for all customers of bowling alleys and similar interactive amusement venues, bingo halls, simulcasting and skating rinks in Texas.

The virus that causes COVID-19 can be spread to others by infected persons who have few or no symptoms. Even if an infected person is only mildly ill, the people they spread it to may become seriously ill or even die, especially if that person is 65 or older with pre-existing health conditions that place them at higher risk.

Please note, public health guidance cannot anticipate every unique situation. Individuals should stay informed and take actions based on common sense and wise judgment that will protect health and support economic revitalization.

Health protocols for individuals:

- Individuals should avoid being in a group larger than 10 individuals.
Self-screen before going into the bowling alley or similar interactive amusement venue, bingo hall, simulcasting, or skating rink for any of the following new or worsening signs or symptoms of possible COVID-19:
Cough, Shortness of breath or difficulty breathing, Chills, Repeated shaking with chills, Muscle pain, Headache, Sore throat, Loss of taste or smell, Diarrhea, Feeling feverish or a measured temperature greater than or equal to 100.0 degrees Fahrenheit, Known close contact with a person who is lab confirmed to have COVID-19.
Wash or disinfect hands upon entering the facility and after any interaction with employees, other customers, or items in the facility.
Consistent with the actions taken by many individuals across the state, consider wearing cloth face coverings (over the nose and mouth) when entering the facility, or when within 6 feet of another person who is not a member of the individual's group.

BOWLING AND SIMILAR INTERACTIVE AMUSEMENTS, BINGO, SIMULCASTING, SKATING CUSTOMERS: Page 2 of 2

- Individuals aged 65 or older are at a higher risk of COVID-19. To the extent possible, avoid being within 6 feet with individuals aged 65 and older. Individuals aged 65 and older should stay at home as much as possible.
- Carry hand sanitizer, and use it regularly while at the facility, especially after contact with individuals outside the household.
