

✓ CHECKLIST FOR AMUSEMENT PARK VISITORS

The following are the minimum recommended health protocols for all amusement park visitors in Texas. These minimum health protocols are not a limit on the health protocols that individuals may adopt. Individuals are encouraged to adopt additional protocols consistent with their specific needs and circumstances to help protect the health and safety of all Texans.

The virus that causes COVID-19 can be spread to others by infected persons who have few or no symptoms. Even if an infected person is only mildly ill, the people they spread it to may become seriously ill or even die, especially if that person is 65 or older with pre-existing health conditions that place them at higher risk. Because of the hidden nature of this threat, everyone should rigorously follow the practices specified in these protocols, all of which facilitate a safe and measured reopening of Texas. The virus that causes COVID-19 is still circulating in our communities. We should continue to observe practices that protect everyone, including those who are most vulnerable.

Please note, public health guidance cannot anticipate every unique situation. Individuals should stay informed and take actions based on common sense and wise judgment that will protect health and support economic revitalization.

Health protocols for amusement park visitors:

- Individuals aged 65 or older are at a higher risk of COVID-19. To the extent possible, avoid contact within 6 feet with individuals aged 65 and older.
Individuals should avoid being in a group larger than 10 individuals.
Self-screen before going to an amusement park for any of the following new or worsening signs or symptoms of possible COVID-19: Cough, Shortness of breath or difficulty breathing, Chills, Repeated shaking with chills, Muscle pain, Headache, Sore throat, Loss of taste or smell, Diarrhea, Feeling feverish or a measured temperature greater than or equal to 100.0 degrees Fahrenheit, Known close contact with a person who is lab confirmed to have COVID-19.
Wash or disinfect hands after any interaction with employees, other customers, or items in the amusement park or after eating.
Avoid touching areas that other patrons have touched. Carry and use hand sanitizer regularly inside the amusement park to disinfect hands, especially before eating.
Consistent with the actions taken by many individuals across the state, it is strongly recommended that individuals wear cloth face coverings (over the nose and mouth) at an amusement park when within 6 feet of another person who is not a member of the individual's group.
